

### Corporate Overview

Phacil, Inc. is an award-winning ISO 9001:2008 registered Government Contractor. The Company provides Diversified Services to both the Civilian and Defense markets, including Information Technology, Engineering/Research and Development (R&D), Facilities Management Support, Security and Intelligence, and Business Operations Support. Phacil has received a number of recognitions, including rankings on Washington Technology's Fast 50, Washington Business Journal's Top Government Technology Contractors, NJBIZ's Top Technology Providers and SBA Business of the Year in New Jersey for 2010.

### Customers

Phacil's Government customers include the Department of Agriculture, Department of Commerce, Department of Housing and Urban Development, Department of Labor, Department of Veterans Affairs, General Services Administration, National Aeronautics and Space Administration, Nuclear Regulatory Commission, U.S. Air Force, U.S. Army, U.S. Navy, Defense Threat Reduction Agency, Department of Defense – Office of Inspector General, and Missile Defense Agency – to name a few.

### Capabilities

By employing and contracting an outstanding group of skilled professionals and having immediate access to other proven experts, Phacil is extremely scalable in meeting demanding tasks in a timely, professional, and cost-efficient manner. Working with best-in-breed strategic partners, Phacil designs, engineers, and implements full solutions for clients that maximize the competitive advantage of networking-based systems. The Company has a proven and demonstrable track record of on-time, on-budget project delivery – every time.

### Information Technology (IT) Services

Implementing an ITIL based Service Management strategy at an agency level, Phacil infuses its diverse and robust IT services with a customer-centric, collaborative solutions approach and CMMI Level 3 best practices. Some of the IT support Phacil provides include SETA services and program management, software development, database services, Web-based solutions, data center management, networking, telecommunications, and SharePoint.

### Engineering/Research and Development (R&D)

Phacil provides scientific, engineering, and R&D support services, including design, planning, analyzing, prototyping, installation, testing, and fabrication of various types of equipment and systems.

### Facilities Management Support

Phacil provides an entire array of facility & logistics support services, including support in customer relationship management, facilities management, logistics, warehouse operations, and inventory management.

### Security & Intelligence Services

Phacil's services include information assurance, document review, and security and intelligence support.

### Business Operations Support

Phacil brings extensive experience in acquisition and source selection planning, contract management, procurement and logistics, finance/accounting, and business intelligence services. The Company also offers a full range of human resources (HR) support, including payroll, records management, benefits counseling, and policy development.

### Contract Vehicles

Phacil is set up with various types of vehicles including ID/IQs, schedules, multiple agency, and governmentwide acquisition contracts (GWACs). We are contract holders of: five GSA programs (Alliant Small Business GWAC, 8(a) STARS II GWAC, MOBIS Schedule 874, IT Schedule 70, LOGWORLD Schedule 874V); USPTO SDI; DOJ ITSS-4; FBI IT Triple S; Navy Seaport-e; and FAA eFAST MOA.
